REVIEW OF CORPS AT CAMP M'KENZIE

WITNESSED BY MANY RESI-DENTS IN AUGUSTA.

A Board to Be Formed for the Examination of Members of the Corps Who Are Discharged from the Service by the Secretary of War. Lieutenant John C. Harrington Is Confined to His Bed Again-Harold Gillespie Has Secured a Pro-

Special to the Scranton Tribune.

Camp Mac Kenzie, Augusta, Ga., Dec 8.-The corps review which was scheduled for the latter part of last week but postponed on account of the heavy and continuous rain storms, was held Tuesday afternoon by Major General Young, the remporary corps commander, accompanied by Brigadier General Gobin, in charge of the division, the corps and division staff officers and Troop B, of the Third United States cavalry. The two brigades were drawn up on the main drill grounds and the reviewing officers rode along in front. and in the rear, closely inspecting the

After this, the troops were murched past the reviewing stand in columns The Eighth Pennsylvaria led the line and was followed by the Thirteenth. Then came the Fifteenth Minnesota, the Tenth Ohio, the First Maryland, and the Thirty-fifth The troops gave a good Michigan. account of themselves, which pleased the corps and division commanders very highly. The review was witnessed by the four hundred of Augusta who drave here in their carriages.

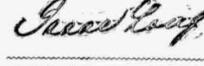

For the purpose of having a permanent body of well-qualified physicians whose duty it shall be to make a thorough physical examination of all men who get their discharge from the service, the commanding officer of the Second army corps has issued an order according to the terms of which a board of physical examination will

PURPOSE OF ORDER.

The chief purposes of this order are to ascertain in what physical condition a man is when he receives his discharge, so that it can be compared with his physical status when entering the army, and at the same time to fully inquire into the cause, origin and extent of any ailment. All this is done to reduce pension claims in the future to a minimum, and to make it impossible for unworthy claimants to scended from some of the best Kenimpose upon the liberality of the gov-

In this connection it may be noted that Major Surgeon Woodbridge, of the First brigade, has been appointed as the general examining officer for the Third brigade, and he has conducted his physical examination of the members of the Thirteenth who have receiv ed their discharges incide the past week. The idea of selecting an examining officer outside of the brigade is on account of the deside to avoid any chance, or even a mere suspicion, of

Word has been received by some of the members of Company G to the ef- next Monday night. fect that Lieutenant John C. Harrington is now confined to bed at his home in Montrose, Lieutenant Harrington succumbed to a serious attack of typhoid fever soon after the regiment had reached Camp Meade. He was at | What the Anthracite Operators' Derisburg, where he received all the as-

A Christmas Store. To Be Sure,

But not in the accepted sense. You waste no time here searching for the exclusive and unique-all and with cars so hard to secure as they are such. The same intelligent selection that chooses "wearables" for all the days is used in the procuring of "gifty" things for the holidays. The counterpart of our display is not to be seen in this section, for many are imported for this at this time. The demand for all the year's holiday selling. If you'll come we think you'll be convinced October was 4,700,000 tons, and it is exthat your journey has amply paid for itself. There will be an economy in shopping satisfaction that is not balanced by the mere eightyfive cent railroad fare.

The Holiday Handkerchiefs

You can buy these at home. True. You can buy handkershiefs almost anywhere. You can buy dition. them of peddlers. But here you buy with a positive guaranteeno matter whether the price ence and quite certain of running no matter whether the price has tended to make a much more con be ten cents or ten dollars-that fident feeling as to the anthracite situyour purchase is ALL LINEN, ation, and has given it a tone and That's our method-nothing but 1899 much brighter than that for 1898," pure linen flax in each handkerchiefs sold as such-a method that has built up a handkerchlef business so large that a thousand dozens are here for you to hunt among for the sort you wish.

sistance which could possibly be rendered him under the circumstances. He was in a precarious condition for a time, but finally rallied, and recovered to such an extent that he was able to get up and from his window wave a farewell to the boys as the regiment passed out of Harrisburg on its way south, to this place. Soon afterwards he was discharged and went home to Montrose, where he took a slight re-When last heard from, indirectly, his condition did not promise an early return to his company. He

is now confined to bed again GILLESPIE PROMOTED.

In a former letter it was noted that while under the new regulations the regimental hospital has been entitled to three hospital stewards, ranking as sergeants, it has had only two. This has been remedied, and the deficiency was made good yesterday by the appointment of Private Harold L. Cillesple, formerly a member of Company D, but recently transferred to the hospital corps, to the position of acting hospital steward.

Sergeant Cillespie is the son of Mr. and Mrs. Thomas Gillespie, of 1819 North Main avenue, North End, and for some time previous to his enlistment in the United States service had been employed as a druggist by Matthews Bros., Lackawanna avenue, an experience which will now serve him well. He saw one year's service as a member of the old National guard. Sergeant Gillespie is receiving congratulations from his many friends over his promotion. He has donned the green chevrons indicative of his new

Lieutenant Arthur R. Foote, of D. is acting as adjutant of the Second battalion, owing to the fact that Adjutant Gunster is engaged as regimental quartermaster

Musician Charles Thomas, of E, who blows all calls during the absence of Bugler Emmett McDermott, is the posessor of a new and beautiful bugie, which he takes much pride.

Musicians Louis Decker, Fred Gill and Charles Lang, of E. eat with C company during the absence from amp of their own company on provos.

HAS REJOINED REGIMENT.

Sergeant Irwin Kistler, who went ome on furlough nearly eleven weeks ago, and became sick there, has returned to his duties at the regimental hospital, and is now in perfect health. Telephone wires are being laid to regimental headquarters.

Corporal Hanford H. Swingle, of C who has been troubled with jaundice for the past few days, is now rapidly improving.

Major E. D. Fellows is the possessor of one of the finest mounts in camp, a beautiful and spirited bay mare, de-

By an order from corps headquarters no more descriptive lists are sent to hospitals with patients, unless such patients are sent to another hospital than that of the division to which they belong.

Private Charles Hamilton, of B. the well-known and popular attache at the Academy of Music, and Private Karl Gunster, of C. today entertained M. F. Manton, advance agent of Marie Wainwright, in her new play "Shall We Forgive Her." Mr. Manton is a personal friend of Private Hamilton, and gave him a pass to see the play

INDUSTRIAL JOTTINGS.

cember Letter Has to Say About Condition of Coal Trade. Other Notes of Interest.

The December letter of the Anthra-

ite Coal Operators' association says: "During the greater part of November the market remained in about the same condition that it was at the beginning of the month, with a slightly increased demand toward the latter part, but the decided change in the the month materially increased the demand, especially from the west, and if this continues for any length of time, stocks will rapidly become depleted are at present, and consequent inability of dealers to fill their orders on time, there is reason to believe that prices will advance. In fact, there has already been an advance on chestnut coal of fifteen cents per ton, f. o. b. although this is due to the unusual scarcity of this size, stocks of same never having been so low as they are small sizes seems to be very steady. "The output of coal for the month of pected that the production for November will be somewhat near this amount, What the tonnage for December will be, cannot, of course, be determined as yet, but in view of the proposed plan for the betterment of the trade and the harmonious feeling which seems to exist among the interests, the output will undoubtedly be restricted, which should he the case if the companies wish to show that they are serious in their intentions to bring about better conditions, knowing, as they have learned from past experience, that an unrestricted tonnage at the last of the year always results in an overstocked market that takes six months of the following year to restore to a normal con

"Although the details of this proposed plan have not yet been made public, the fact that such a plan is in existence and quite certain of fulfillment firmness that makes the outlook for

MAKING CHANGES.

In anticipation of the contemplated changes in coal transportation for next year the Delaware and Hudson company are making several changes. The bit yard situated north of Carbondale being enlarged and the tracks altered. This yard was used extensively for the yarding of the gravity style of cars and now that shipment by these cars will cease after the first of the year the broader guage tracks must be

The tracks are therefore being laid in the regular track guage and the Delaware and Hudson company will just leave its big cars in the yard. where the Eric road can easily con-tinue them over their road to the seaboard. The fact that the big cars will be used necessitates changes at the collieries or several of them. The loaded and empty tracks in the colliery switches must be altered and the pockets in the breakers raised. These minor changes are now underway. Conversation with a Delaware and Hudson offi cial, high in authority, elicted the state-

ment that nothing beyond the ordinary is being done by the company, no change of any moment is at present contemplated, but there exists a strong wish that a good, stiff winter will hap-pen along and thus bring cheer to all in the coal trade.

THIS AND THAT. A washery is to be erected by the Delaware and Hudson Canal company, near the Racket Brook breaker at Car bondale, to use up the culm pile at that

The projected West Branch Valley railroad, connecting the Reading with the Buffalo, Rochester and Pittsburg will, if completed, shut the Beech Creek rallroad out of a large amount of busi-

The fire in the Ravine mine at Pittston into which water has pouring for the past eral weeks, has been put out, and before many days the work of pumping out the water will be commenced. But several months will intervenc before the mine will be in

eadiness to resume work. The officials of the Pennsylvania Coal company have decided to place an air motor in No. 14 shaft to haul cars between the hoisting shaft and the extreme end of the level heading, which it is intended to re-open after a temporary abandonment, the distance being one and one-half miles. The motor will not be ready for six months yet.

The Pennsylvania Railroad company has put on a night express train from Pittsburg to New York, starting at 10 specified number of wardens may be m. and running through in nine hours and forty-five minutes. The train the distance through is about 431 miles. Allowing nine and one-half hours for the run of the train to Jersey City, 430 streams. miles, the rate of speed is forty-five and one-quarter miles an hour.

The Pennsylvania Coal company, a Pittston, has been building a founda- Federal Steel Company's Purchase tion for an additional engine at their water works, and has been using the heavy stone in the masonry from old No. 11 shaft, near Dunmore, for the purpose. The new engine is put in place so that the water supply will be uninterrupted in case the engine now run-

ning should break down. Miners frequently comment upon the vast amount of machinery that is being installed in mines operated by progressive firms, and draw the conclusion from it that there is going to be much less pick-mined coal produced in future, which is entirely correct. With coalmining machinery attaining perfection by leaps and bounds, forty to fifty-ton railway cars, locomotives that will haul 2,000 tons and colliers on the lakes that will carry 10,000 tons, there is bound to be an evolution that has within it the

germs of a revolution. Owing to a rush of orders, the Scranton Axle works yesterday began to

work overtime.

REMARKABLE CASE.

Shows That Elliott L. Duckworth Was Murdered.

St. Louis, Dec. 8.-Dr. Otto Sutter, superintendent of the city hospital. says the case of the Elliott L. Duckworth, who was mysteriously shot in Forest Park in June, 1897, was one of the most remarkable that ever came under his observation.

"I recall all the circumstances of that case now," said Dr. Sutter. The patient was entered on the hospital records as Edward Dolling. That was the name on a card found in his possession. It was a month before we found out that was not his name.

"At first he would reply to the name of Dolling and he said that that was his name. I talked to him many time but he could not recall anything of the past. He was always sure that he had not attempted to kill himself but he could not tell how he came to be wounded.

"Later the patient improved and he finally said that his name was Elliott L. Duckworth and that his home was in Springfield, Mo. He said his sister Mrs. Eva C. Hutchinson, lived in Hutchinson, Kas. She afterwards came for and took him to her home. C. M. Duckworth, a brother of the dead man, arrived here today. He beweather during the past few days of lieves Elliott was murdered and asks that the police department put men or the track of the murderer.

SHARKEY-M'COY FIGHT.

Articles of Agreement Have Been

Signed-Tim Hurst the Referee. New York, Dec. 8 .- Articles of agreement for a 20-round boxing contest between Tom Sharkey and "Kid" Me-Coy, to take place at the Lenox Athletic club, this city, on Jan. 10, were signed today by both principals. The men are to box for a purse of \$20,000 and 50 per cent, of all receipts exceeding \$40,000. 'Fim Hurst was mutually chosen as referee. In order that the fight may not result in a flasco like the Sharkey-Corbett affair, the articles provide that the interference of any of the fighters' seconds or their invasion of the ring will not stop the contest. Any second or outsider who tries to enter the ring during the contest will be immediately placed under arrest. The men will box Queensbury rules with the exception that they will not

be permitted to hit in clinches or breakaways. After the match had been made Sharkey hold a friendly conference with Jim Corbett, who wished him luck in the fight and announced his intention of going to the Pacific coast to fight Jefferies. Corbett afterward sent a despatch to his brother in California saying: "I will take on Jefries Match me to meet him in February."

FISH COMMISSION.

Law Advocated to Protect the Small Fry Trout.

Harrisburg, Dec. 8.—The state fish ommission transmitted to Governor Hastings today a report of its opera-The work of the commission has been much hampered by the failure of the last legislature to make the usual appropriation. The next legislature is expected to make an appropriation sufcicient to cover the expenses of the ommission the next two years and reimburse the individuals and clubs who advanced the money to carry on the

work the past eighteen months. The commission requests the governor to urge the legislature to fix at least a six inch limit of size for the legal killing of any species of trout and that the minimum size at which black bass may be killed shall be raised from six to nine inches. The commission also recommends that the fish warden system be so changed that a appointed at a salary that will be sufficient for the state to demand their runs over the Trenton cut-off by which | whole time. Efforts are making by the commissioners to secure the passage of a law to prevent the pollution of

of a Railroad Interpreted.

Pittsburg, Dec. 8 .- Iron and steel nen, as well as railroad men, are disussing with great interest the purchase of the Cleveland, Lorain and Wheeling Railway by the Federal Steel company. Delano Luce of the Great Northern railroad, who is in the city. says, regarding the sale of the road:

The consensus of opinion around the lakes seems to be that the Federal Steel company has tightened up its lines by the purchase of this fine coal read, and that it is ready to begin a war promised against the Carnegie Steel company. Since Johnson moved his big steel mills from Johnstown to Lorain he has been very busy improv ing, and now the biggest lake steamships can come up to the doors of the mills and take on goods and unload ore All that was needed was a road connecting the immense mills with some coal field, and by the purchase of the Cleveland, Lorain and Wheeling the Federal people have got into the finest coal district in the country. You will find soon a most bitter fight on between rival concerns. It looks like a battle with the lake front concerns arrayed against the interior steel manufactur

SORE CORED BY CUTICURA

Mysore hands commenced with a burning on my fingers. When I rubbed them you could see little white pimples, and I felt like twisting them out of their sockets. I had high fever and cold chills, nights I had to waik the floor until I fell select. My hands peeled like an onion, the finger nails got loose, the waterran out, and there the burning fire was. My hands puffed up worse than a toad, the water ran through the bandage on to the floor. I went to a doctor for a year. I got Cuttoura Resoutern and Cuttoura Soar. The nails hardened up, peeled off, and my hands are now curred. up, peeled off, and my hands are now cured. CASPER DIETSCHLER, Pembroke, N. Y.
